

## Dr RW 2019 Cabernet Sauvignon

Wise Eagle Bay is a family-owned boutique winery located at the northern end of the Margaret River wine region. Our philosophy in the vineyard starts with sustainable farming practices, nurturing the soil and the vines to produce fruit with distinct varietal characteristics. Our winemakers strive to complete the process that was begun in the vineyard by guiding and protecting the nuances of the fruit with great care and minimal intervention.

Region: Frankland River

100% Cabernet Sauvignon

14.5% alc/vol

Optimal drinking: Now until 2045

### **Wine making**

A small selection of hand-picked Cabernet Sauvignon grapes from Frankland River were naturally fermented on skins with 18 months maturation in French Oak barrels. A rare wine from a special vineyard and excellent vintage. This Cabernet Sauvignon was produced exclusively for Ron Wise, the owner of Wise Eagle Bay in Western Australia.

### **Tasting**

This wine is quite the mouthful. Rich dark fruits, blackberry, dark cherry, liquorish, cocoa, and cigar box are all obvious on the nose. The mouth is full of young fruit characters but will in time develop into something beautifully complex with soft tannins to match. Cellar for a few years before you tackle this one.
